

# SDWIS Inventory/Monitoring Schedule

The Office of Drinking Water (ODW) will provide an electronic schedule of waterworks and their monitoring requirements for the upcoming quarter. This file will be distributed to EDE participating laboratories via electronic mail by the 10<sup>th</sup> of March, June, September and December. EDE laboratories are encouraged to integrate this data into their LIMS, for systems for which they are authorized to report results. The following data elements provided in this file are required data elements to submit results back to ODW:

PWSID  
Facility ID  
Sample Category  
Sample Type  
Sample Location  
Classification Code  
Sampling Point  
Compliance  
PB Type Code

Click the links below for an example of a monitoring schedule and the analyte code groups.
